Powering Progress. Advancing a Sustainable Future

As Oman's leading energy producer, we are proud to power the delivering the majority of its crude oil and natural gas supply. But our commitment goes far beyond production—we strive to create lasting through excellence, innovation, and sustainable growth.

With a strong foundation in the oil and gas sector, we are expanding global presence while actively advancing renewable energy driving decarbonization efforts. Our strategy is built around excellence, safety, and competitive sustainability, all aimed at carbon, resilient future for Oman and beyond.

We are more than an energy company—we are a catalyst for working to ensure energy security today while building a cleaner

Through collaboration, innovation, and a steadfast commitment to we are building a future where Oman stands at the forefront of the energy transition—delivering not just energy, but progress.

Technology and Innovation:

- PDO is known for its innovative approaches to oil recovery, particularly in enhanced oil recovery (EOR) methods. These include advanced drilling technologies, seismic surveys, and artificial lift systems.
- The company is also involved in sustainability and environmental efforts, working on reducing carbon emissions and improving the efficiency of its operations.
